*This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*

The worst evil of modern academic life, particularly under the elective system, is that the student may so seldom be called upon to think for himself; - not merely to cram and memorize, to absorb information predigested by an instructor, but rather to actively use his reasoning powers in effecting recombinations of ideas. To provide material, preferably of a debatable sort, which may be worked over under discussion in the class room, instead of being merely committed to memory, constitutes the pedagogical aim of this book. Some of the extracts, especially the historical ones, are of course not susceptible of such treatment. They are merely reference readings for convenient use. But the others, notably the decisions of the Interstate Commerce Commission, usually provide debatable matter of an admirable sort.
