Reviews

Great electronic book and useful one. It can be written in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Brand New Book ***** Print on Demand *****.Excerpt from The Manual of Receipts: Being a Collection of Formulae and Processes for Artisans, Giving the Composition of Various Alloys, Amalgams, Solders, Bronzes, Lacquers, Varnishes, Cements, Etc., Also Data for the Preservation and Decoration of Various Metallic Articles Not so very many years ago the publication of a book such as this one would have been an impossibility, as metal workers guarded their secrets with jealous care and would, under no consideration, give out the slightest inkling as to the composition of the various lacquers, alloys, etc., used in the manufacture of various articles. The stride taken by analytical chemistry has changed all this, and recent years have seen publicity thrown on the ingredients of many components absolutely unknown before. In the preparation of this volume I have freely availed myself of the vast store of metal receipts and processes contained in The American Artisan during the nineteen years of its existence. These aforesaid receipts and processes are certainly of special value to sheet metal workers, as they have at one time or another been asked for by readers of that paper, and in a number of cases the information given was furnished by manufacturers using the receipt in their business or by skilled mechanics furnishing a compound whose ingredients they had themselves worked out, these valuable data being first published in The American Artisan and never having appeared in book form until now. I must also acknowledge my indebtedness in the compilation of this volume to leading American and foreign technical journals, notably those published in Germany in behalf of the metal industry, from whose columns I have from time to time clipped receipts, the...
