

The Management of Labour (Second Edition)

By S Arulkumaran, Leonie K Penna & K Bhasker Rao (eds)

Orient BlackSwan/ Universities Press, 2004. Softcover. Book Condition: New. The management of labour is an important part of obstetric practice for the obstetrician and midwife alike. Although labour events are typically not complicated, many women develop problems resulting in maternal, fetal or neonatal morbidity and mortality. Hypoxia, trauma and infection are inherent risks. This multi-author volume draws on the work of specialists who are internationally recognised and have contributed extensively to studies in intrapartum and post-partum management including key areas such as intrapartum fetal monitoring, prolonged pregnancies, preterm births and neonatal resuscitation. Printed Pages: 396.

Reviews

Completely essential read publication. It is really basic but excitement in the fifty percent of the book. You will not really feel monotony at anytime of your respective time (that's what catalogues are for about in the event you ask me).
