

## Numerical Solution of Nonlinear Boundary Value Problems with Applications

By Milan Kubicek

Dover Publications. Paperback. Book Condition: New. Paperback. 334 pages. Dimensions: 8.3in. x 5.4in. x 0.8in. A survey of the development, analysis, and application of numerical techniques in solving nonlinear boundary value problems, this text presents numerical analysis as a working tool for physicists and engineers. Starting with a survey of accomplishments in the field, it explores initial and boundary value problems for ordinary differential equations, linear boundary value problems, and the numerical realization of parametric studies in nonlinear boundary value problems. The authors, Milan Kubicek, Professor at the Prague Institute of Chemical Technology, and Vladimir Hlavacek, Professor at the University of Buffalo, emphasize the description and straightforward application of numerical techniques rather than underlying theory. This approach reflects their extensive experience with the application of diverse numerical algorithms. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

### Reviews

*This is the finest ebook I have got read through till now. It really is full of wisdom and knowledge. You won't sense monotony at anytime of the time (that's what catalogs are for relating to in the event you ask me).*

-- Mr. Edison Roberts IV

*This is an remarkable publication that I have ever read. Indeed, it is actually engage in, nevertheless an interesting and amazing literature. I am just happy to inform you that this is the best publication I have got go through during my personal lifestyle and may be the finest ebook for actually.*

-- Toby Baumbach
