

## Javaserver Faces 2.0: The Complete Reference

By Chris Schalk, Ed Burns

Tata McGraw-Hill Education Pvt. Ltd., 2010. Softcover. Book Condition: New. First edition. Fully revised and updated for all of the changes in JavaServer Faces (JSF) 2.0, this comprehensive volume covers every aspect of the official standard Web development architecture for JavaEE. Inside this authoritative resource, the co-spec lead for JSF at Sun Microsystems shows you how to create dynamic, cross-browser Web applications that deliver a world-class user experience while preserving a high level of code quality and maintainability. JavaServer Faces 2.0: The Complete Reference features an integrated sample application to use as a model for your own JSF applications, with code available online. The book explains all JSF features, including the request processing lifecycle, managed beans, page navigation, component development, Ajax, validation, internationalization, and security. Expert Group Insights throughout the book offer insider information on the design of JSF. Set up a development environment and build a JSF application. Understand the JSF request processing lifecycle. Use the Facelets View Declaration Language, managed beans, and the JSF expression language (EL). Define page flow with the JSF Navigation Model, including the new "Implicit Navigation" feature. Work with the user interface component model and the JSF event model, including support for bookmarkable pages...
