Reviews

Simply no phrases to clarify. It is really basic but surprises from the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Adequate reason for making such training part of the national system of education exists in the fact, that a large proportion of the people have to earn their livelihood by industries for the attainment of a high degree of skill in which early training of hand and eye is as necessary as it is for success in the use of musical instruments. There can be no doubt that if, in 1870, a system, resembling that of Sloyd, had been generally introduced into English Elementary Schools, the joiners, metal-workers, and most other craftsmen of to-day, would possess more skill in their own work, and more interest in all kinds of manual work, than they do now possess, and that English work people, finding that their children received at school kinds of training obviously well fitted to increase wage-earning power, would less commonly than now be careless with regard to their children s attendance at school. This reason for desiring the introduction of manual training into Elementary Schools might have been expected to suggest itself to all persons who are acquainted with the conditions under which the mass of English people live; but experience gained in Sweden and other countries where the Sloyd system has been largely used, proves that there are also...
